SECURITY INTEGRATION TECHNICIAN

Cardac Systems Inc.

The Security Division of the Wescan Group of Companies (Cardac Systems Inc.) is seeking a licensed, experienced Security Integration Technician to install, program, test, repair and and service a variety of Access Control, CCTV, Intrusion and Intercom systems through-out Manitoba.

Responsibilities

- Read and interpret blueprints, schematics, manuals, wiring diagrams, and other specifications to determine installation and service requirements.
- Execute technical aspects of a project, including installation, testing, troubleshooting, and repair following established professional methods.
- Maintain high level of customer satisfaction, product performance, installation techniques and standards; meet project deadlines and budgets.
- Participate as part of construction and service team, make suggestions for product and installation improvements.
- Identify and communicate risks; comply with all safety protocols and procedures.
- Participate in system start-up/check-out, commissioning, certification, and related customer training.
- Communicate effectively with office, field staff, and customers.
- Manage and maintain truck inventory of security products, allocate and re-stock as necessary.
- Prepare service call reports upon completion of each call, and record customer sign-off.
- Complete daily/weekly time sheet.
- Maintain technical knowledge regarding the industry and respective field of expertise by attending external and internal training.

Qualifications

- At least 3 years of experience in the security industry, working with Access Control, CCTV, Intrusion and Intercom systems, with proven installation skills.
- Class M electrical license (Class M-Alarm or Class M-Data).
- Good understanding of networking and network structure.
- Familiarity with electrified door hardware.
- Must have reliable vehicle and valid class 5 driver's license with clean driving record.
- Clean criminal record (Canada-Wide).
- Excellent verbal and written communication skills (English).
- Ability to work independently or as part of a team; initiative; good problem-solving skills.
- Knowledge of building codes an asset.
- Industry related manufacturer and safety certifications would be beneficial.
- Familiarity with some or all of the following systems:

Video Surveillance: Mostly IP with some analog.

Card Access: Including controller, reader, relay and lock installation, interconnect and configuration. Software installation, configuration and programming an asset.

Intrusion: Wireless and hardwired, including panel, keypad and device installation, interconnect and configuration. Panel programming, both manually and via software.

Intercom: Analog and IP, including installation, interconnect and setup of systems.

Please note that only those applicants being considered for an interview will be contacted.
